

PRESS RELEASE

Connective has been nominated for the Deloitte's 2018 Technology Fast 50

Antwerp, 25-10-2018 - Connective has been nominated for Deloitte's 2018 Technology Fast 50 competition for technology companies headquartered in Belgium. The Fast 50 award will be given to the country's fastest-growing technology company, based on its percentage of growth in turnover during the last four years. The ranking will be announced at the Awards Ceremony on 15 November 2018.

Connective is a key player in delivering European Identity services & digital signature solutions. Their modular Digital Transaction Management software includes solutions for "glocal" IDENTITY SERVICES, flexible generation of dynamic SMART DOCUMENTS and obtaining legally binding eSIGNATURES (eIDAS certified). Connective is known for integrating the best-of-breed European identification & signature methods (such as beID, IDIN, Itsme®, SMS- or email OTP and more).

Nicolas Metivier, CEO of Connective, proudly states: *"It is an honor and a great summary of our work to be nominated for Deloitte's Technology Fast 50. It proves the value of our mission – To foster a Digital Transaction Management ecosystem that helps organizations to manage any kind of paper-based transaction digitally and to increase operational efficiency while offering the best-in-class experience to their users."*

About the Deloitte's 2018 Technology Fast 50

The Technology Fast 50 competition is an annual selection of the 50 fastest growing and innovative technology companies headquartered in Belgium. Public or private companies who develop a technology related product or service and who have experienced substantial revenue growth over the last four years can enter the competition for their chance to be nominated as one of the 50 fastest-growing technology companies in Belgium.

Companies that have been active in the technology sector for less than four years can participate in the special Rising Star category of the competition. These companies are judged by an independent jury on their turnover potential and scalability.

Participating in the Technology Fast 50 competition can help companies to develop their business by increasing their visibility and giving them access to the Fast 50's unique network of highly successful executives.

About Connective
