eSignatures

Digital signatures reinvented.
Intuitive, secure and most
importantly eIDAS compliant!

Other signing
methods
available via
Connective

Demo

We will explain how to:

- ✓ Prepare a document for signing
- ✓ Sign a document with itsme®

Advantages itsme® Sign

- Easy and fast signing of documents
- QES without a card-reader
- Legal equivalent of handwritten signature
- Anywhere, anytime, from any device
- No plug-ins to install
- Branded Notification, add your corporate identity in the signature notification

CONNECTIVE

Advantages itsme® Sign through Connective eSignatures Platform

- Optimal signing method for any use case
- Extensive workflow (multiple signers, multiple documents, approvals, reassignment, ...)
- API or Stand-alone Portal, the choice is yours
- White labeled solution, adjust all screens to your branding and corporate identity

Both itsme® &
Connective are
certified **Trust
Service Providers**
in accordance with
eIDAS

eSignatures for ENGIE Benelux

User-friendly signing process in **Human Resources** that is also environmentally conscious.

Yearly Challenge

How to manage contractual changes for 600 employees and 1,000 new hired employees in Belgium? In need of a solution that accelerate the signing process in employee and candidate perspective.

Solution

- itsme® for qualified addendum signing on existing labour contracts
- itsme® for qualified signature labour contracts by managers and candidates
- SaaS solution, hosted in the Cloud
- Anywhere, anytime, from any device

Results

- Easy to manage/have overview of contracts in signing process
- Speed up end-to-end signing process
- Status as eco-friendly enterprise
- Further roll out to other ENGIE entities

Online Card Acquisition

End-to end digital onboarding process for consumer- and corporate credit cards.

See for yourself at my-amex.com

Challenge

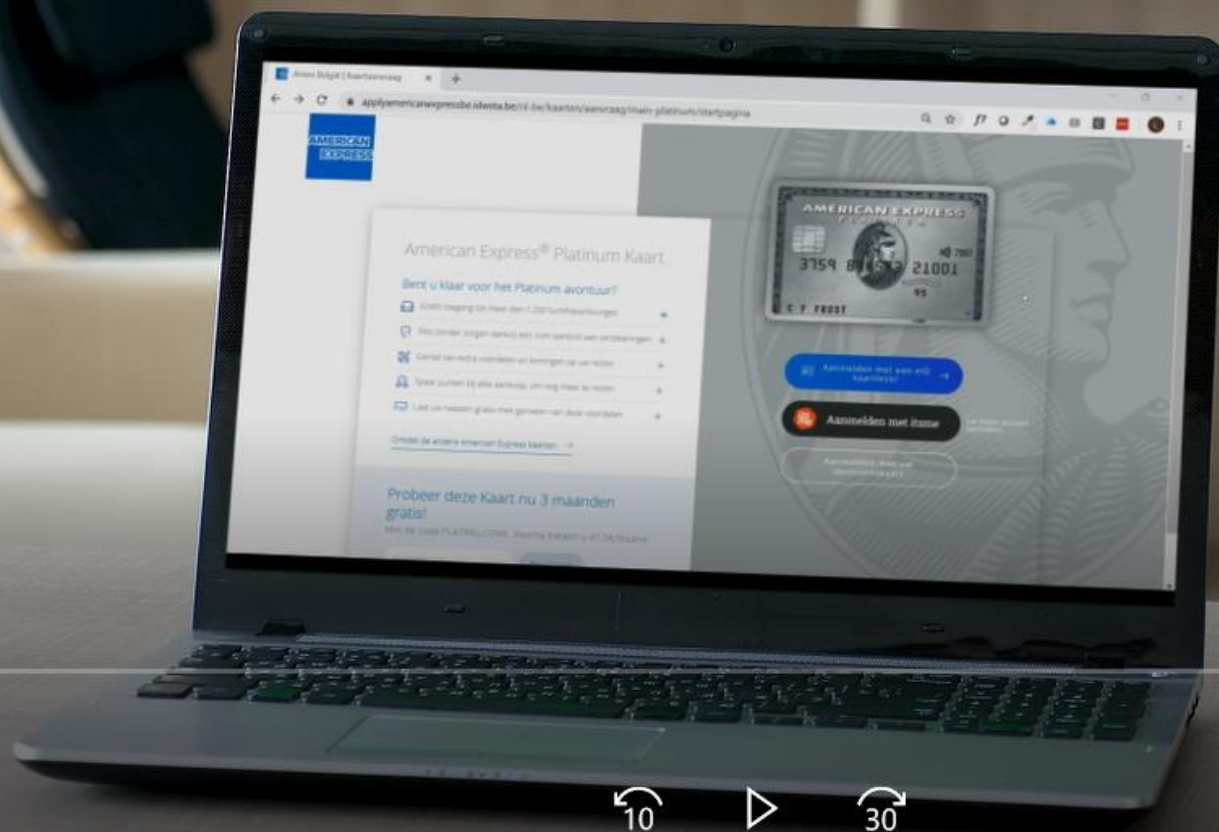

Online channels for acquiring AmEx services (credit cards, payment services and -solutions) were fragmented, leading to an inconsistent user-experience and lacking global overview for conversion and analytics of the product-suite.

Solution

- One single vendor facilitating online KYC and signing
- itsme® integrated for KYC and for signing
- Compliant digital signature
- End-to-end real-time customer journey
- Straight through processing in back-office

Results

- Consistent UX across channels and products
- Scalable solutions: easy to roll out to new markets
- Increased conversion rate
- Reduced approval cycle
- Reduce fraud-risk and contract disputes

What to expect in 2020

Sneak peek of our roadmap

Q2

- SSO (eSignatures portal)
